Abstract

First sentence. Second sentence. Third sentence. Fourth sentence.

1 Introduction

You can and should cross-reference sections and sub-sections. For instance, Section 2. R Markdown automatically makes the sections lower case and adds a dash to spaces to generate labels, for instance, Section 4.1.

A Supplementary survey

Our supplementary survey is available here: [LINK](#)

A.1 Preamble

The purpose of this survey is to further investigate gender. We are interested in more detailed gender data than is provided by the main US GSS and will use this to guide the development of submissions to change future iterations of the GSS.

By proceeding with the survey, you understand that we will use your responses to better understand gender responses in the GSS. The survey is voluntary, and if you decide to participate you can skip questions and withdraw at any time.

A.2 Questions

1. What is your age?
 - 18-29
 - ... ADD all the others
2. What is your gender?
 - Female
 - Male
 - Transgender
 - Non-binary
 - Genderqueer
 - Two-spirit
 - Other ADD some other questions

A.3 End page

Thank you very much for participating in our survey. If you have any questions, you can email rohan.alexander@utoronto.ca
